Setting the standard in performance

Rollmaster is Australia's leading brand of timing chain sets, vernier adjustable chain sets and gear drives. Wholly manufactured in Australia, Rollmaster timing sets are made from K1045 billet steel and machined using the latest CAD/CAM CNC equipment.

Red Series

The *Rollmaster Red Series* timing components are the best choice for most performance applications. All sets feature multi-keyway hardened crank sprockets, lightened cam sprockets, with many fitted with a Torrington thrust bearing.

Gold Series

The *Rollmaster Gold Series* are designed specifically for high performance and race applications. All steel sprockets are nitride hardened for improved wear and longevity. All sets feature multi-keyway hardened crank sprockets, lightened cam sprockets, with many fitted with a Torrington thrust bearing.

IWIS timing chains

All Rollmaster timing chain sets use a seamless Pro Series IWIS chain. Manufactured in Germany to Rollmaster specifications, the IWIS chain cannot be surpassed for strength, durability and torsion.

Line bore sets

Most Rollmaster chain sets are available in line bore sets. Oversizes are in 0.002", 0.005" and 0.010".

Vernier adjustable chain sets

A range of vernier adjustable chain sets are available for greater timing flexibility. All sets have a single keyway crank sprocket and locking nuts on the cam sprocket. Like the Red and Gold Series, many sets are fitted with a Torrington bearing.

Features of all Rollmaster timing chain sets

CNC machined billet steel

Lightened cam sprocket

Torrington bearing (or shim on many sets)

IWIS Pro Series seamless chain

Multi-keyway crank sprocket

Hardened crank sprocket

IWIS Pro Series seamless chains

All Rollmaster timing chain sets include the IWIS Pro Series chain. Manufactured exclusively to Rollmaster specifications, the Pro Series chain has superior breaking strain characteristics to all other chains on the market.

Double row chain

Rollmaster IWIS Pro Series seamless double row chain 9492lbf

Standard IWIS seamed double row chain (D67ZN-20) 9179lbf

Cloyes seamed double row chain (D67ZN-17) 9116lbf

Rolon seamed double row chain 9082lbf

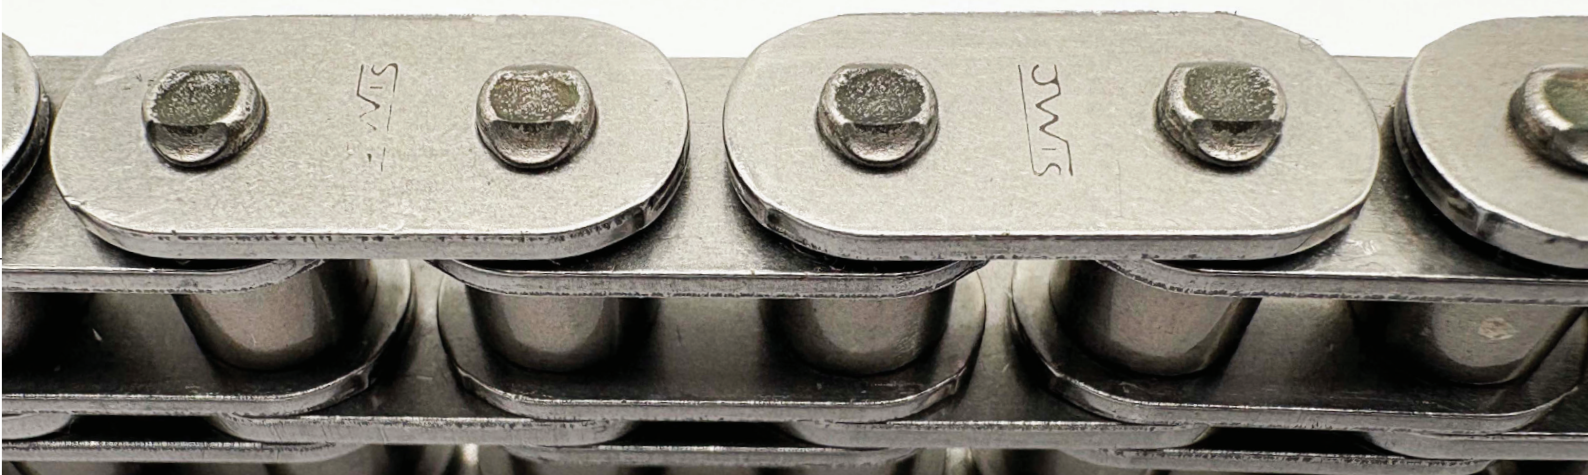

Single row chain

Rollmaster IWIS Pro Series seamless single row chain 5700lbf

Katech seamed single row chain (G68V-2) 5568lbf

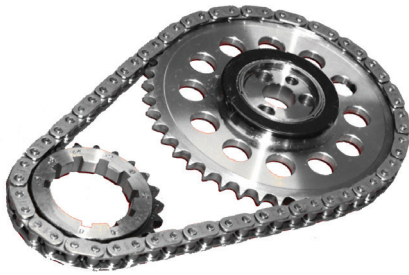

Cloyes seamed double row chain (G67WZ-8) 5568lbf

*Independent fractured chain test conducted by Bureau Vertias and AMDEL in accordance with AS1532-1997 Table 1M for ISO chains.
